

Zinnia

Zinnia elegans

Generated: 02-Dec-2025

Zinnia is an annual flowering plant known for its bold, bright blooms and long- lasting flowers. Belonging to the genus Zinnia , it is native to Mexico and Central America. Zinnias produce daisy-like flowers in a variety of colors, including red, orange, pink, purple, and white. The plant has hairy stems, lance- shaped leaves, and blooms that attract butterflies and pollinators. Zinnias thrive in full sunlight, well-drained soil, and moderate watering. They are commonly grown in gardens, borders, and floral displays for their cheerful appearance and ease of cultivation.
